DANTE CLERICUZIO
WEB DEVELOPER

ABOUT ME

I am a highly motivated fresh graduated who is looking for more experience in a working environment. I am a fast learner and have a positive attitude in facing challenges. I am able to adopt well in new environments and able to finish task handed to me in a timely and serious manner. I am open minded and outgoing. I love working in a team and I am comfortable in both leading a team and being in one.

WORK EXPERIENCE

Oct 2022 - Present
PT. Indonesia Fintopia Technology

Software Engineer (Front-end)

- Lead the development of intuitive and visually appealing user interfaces using Vue.js.
- Implement responsive web design principles to create mobile-friendly and cross-browser compatible applications.
- Conduct code reviews to maintain code quality, readability, and adherence to coding standards.
- Spearhead the implementation of key features, working closely with back-end developers to integrate front-end and back-end functionalities.
- Contribute to the design and architecture of new features and enhancements.
- Actively participate in agile development processes, providing technical expertise and insights.
- Collaborate with cross-functional teams including product managers, designers, and QA engineers to deliver high-quality software solutions on time and within scope.

Jul 2021 - Oct 2022
Freelance

Fullstack Developer

- Developed and maintained full-stack web applications, ensuring seamless integration of front-end and back-end functionalities.
- Implemented responsive and user-friendly designs, enhancing the overall user experience and interface of web applications.
- Collaborated with clients to gather requirements, provide technical consultations, and deliver customized solutions tailored to their specific needs.
- Conducted thorough testing, debugging, and optimization to ensure high performance and reliability of applications.
- Demonstrated proficiency in version control systems (e.g., Git) to manage and track changes in collaborative projects.

Feb 2021 - Jun 2021
PT. JSK Shipping

Web Developer

- Reconstructing existing code to create a user-friendly website.
- Assist in creating the new website using React.js
- Worked well independently and within a team setting.
- Followed policies and procedures related to application methods and quality standards at all times.
- Worked as a productive and positive team member to design, code, test, report, and debug operations.
