

DANTE CLERICUZIO

Software Engineer

(+62)81-858-9669 • danteclericuzio1999@gmail.com • <https://www.danteclericuzio.com/> • Jakarta, Indonesia

Summary

Passionate and detail-oriented Front-End Engineer with 4+ years of experience building modern, high-performance web applications. Proficient in JavaScript, TypeScript, React, Next.js, and Vue.js, with a strong focus on delivering clean, responsive, and user-friendly interfaces. Proven ability to lead feature development from concept to production, collaborate across cross-functional teams, and maintain high standards of code quality. Experienced in front-end team leadership, agile workflows, and working directly with international stakeholders to drive end-to-end delivery.

Experience

PT. Indonesia Fintopia Technology

Jakarta, Indonesia

Software Engineer (Front-end developer)

10/2022 - Present

A technology company focused on financial solutions

- Led the end-to-end development of a **Learning Management System (LMS)** from scratch to production — now actively used by the Indonesia team for new employee onboarding and training.
- Lead the development of intuitive, high-performance user interfaces using **Vue.js**, ensuring smooth user experiences and visual consistency across products.
- Implement **responsive design principles** to deliver mobile-friendly and cross-browser compatible web applications.
- Conduct **code reviews** to maintain high standards of code quality, readability, and maintainability.
- Spearhead key front-end features and collaborate closely with back-end developers to ensure seamless integration across systems.
- Participate in the **design and architectural planning** of new features and enhancements.
- Actively contribute to **agile development processes**, offering technical insights and innovative solutions to improve workflow efficiency.
- Collaborate with **cross-functional teams** — including product managers, designers, and QA engineers — to deliver high-quality, scalable software on schedule.
- Expanded responsibilities to include **front-end leadership**, managing a small team of developers.
- Coordinate directly with the **Headquarters team** to gather requirements, define project scopes, and ensure smooth end-to-end feature delivery from planning to deployment.

Freelance

Remote

Fullstack Developer

07/2021 - Present

Provided software development services on a freelance basis

- Developed and maintained full-stack web applications, ensuring seamless integration of front-end and back-end functionalities.
- Implemented responsive and user-friendly designs, enhancing the overall user experience and interface of web applications.
- Collaborated with clients to gather requirements, provide technical consultations, and deliver customized solutions tailored to specific needs.
- Conducted thorough testing, debugging, and optimization to ensure high performance and reliability of applications.
- Demonstrated proficiency in version control systems (e.g., Git) to manage and track changes in collaborative projects.

PT. JSK Shipping

Jakarta, Indonesia

Web Developer

02/2021 - 06/2021

A shipping company providing logistics solutions

- Rebuilt and modernized the company website, improving usability and front-end code quality.
- Developed new website features using React.js, working effectively both independently and within a team.

Education

Xi'an Jiaotong-Liverpool University

Suzhou, China

Bachelor of Engineering

09/2019 - 06/2022

- Continuing Academic Merit Scholarship
